To enhance innovation performance of enterprises throughout NWE regions

Project Summary

The NWE life science sector is not exploiting its full potential due to the fragmented market and limited critical mass of its clusters. To grow sustainable new business, innovative NWE life science SMEs need to focus on international markets, but are held back by: * Lack of knowledge on internationalisation * Big differences in health care systems, cultures,

Troubleshooting

Interreg North-West Europe
European Regional Development Fund
EUROPEAN UNION

I'm sure I have the right login details… why can't I log in?

I uploaded a video and now my page only says 'error.'

I don't see where to add tabs other than 'events' or 'news.'

We don't have anything to update the website with.

I see something that is not working correctly or have a suggestion for improvement.
