Timeline

You create a timeline (together with the community) which specifies community-related aspects (engagement over time), technological and physical developments, as well as the activities that the cVPP enables provides a further clarification of what the cVPP and the process of developing this cVPP could look like for this specific community.

It will contribute to a more concrete picture of the process towards the cVPP.

Timeline template

This tool is used in step 6 of the backcasting process.

Fill the timeline in in the template or draw it on a large sheet of paper. The example on the next page shows how the timeline could be filled in.
Example of a Timeline

2020-2024

**Technology**
- Energy monitoring and EMS
- Smart meters
- PV households, schools

**Community**
- Learning together
  - Awareness building: community building hand in hand with awareness building, school projects with energy monitoring, recruiting ambassadors; energy parties
- From awareness to active participation
  - Building an energy community; neighbours as ambassadors. Active members in generation, sharing, monitoring and management of renewable energy.

**Organisation**
- Towards 3 fte paid staff; participation EU projects; collaboration similar projects
- Professionalisation, democratic structure; energy citizenship; collaboration with rescoops; lobby..

**Activities**
- Energy monitoring at the schools; PV collectively; test with collective self-consumption and Peer-to-peer.
- Electric shared-mobility: RE generation; collective self-consumption; sustainable heat.

2025-2027

**Technology**
- EV shared mobility, smart charging poles
- Hybrid Heatpumps
- Collective Heatpumps

**Community**
- Energietransition by and for citizens.
  - Sharing lessons for replication in other neighbouring communities.
  - A systemic yet bottom-up approach.

**Organisation**
- Grown-up organisers, model for starting citizen initiatives

**Activities**
- Balancing: collective self-consumption; selling surplus

2028-2030

**Technology**
- Expansion EMS
- Residual heat from hospital
- Hydrogen?

**Community**

**Organisation**

**Activities**

Period 1:
- Which question needs to be addressed in this period?
- Why is this question important?
- What and whom do you need to answer this question?
