

## GREENBIZZ II

*Encourage diversity*

**About** - [Citydev's](#) Design & Build procurement for the development of GREENBIZZ II. The goal is to encourage bidders to take the initiative, integrating reclaimed building materials in the project beyond a pre-determined minimum.

**Challenges** - Implementation of the strategy to include minimum reuse requirements in the call for tenders and awarding extra points for tenders that exceed this minimum, while making use of targeted (specific) objectives within the context of a Design & Build contract.

**Materials involved** - A variety of construction products for different fields of application.

### BRUSSELS - BE - 2021 - Public procurement

Project size : +/- 4.500 m<sup>2</sup>

Interreg FCRBE partner:

[Brussels Environment](#) with the support of [BBRI](#)
