

## Patxa'Ma

### A collective effort

*About* - A reclaim dealer needs to develop a tailor-made technical protocol to facilitate the reuse of electrical switchboards. In this purpose, the dealer triggers a collective work gathering many actors : a reclamation dealer, a reuse expert, an electrical controller, a technical center and a lawyer specialized in construction law.

*Challenges* - How to develop an appropriate technical protocol in order to get a product warranty ? Without this warranty, the product cannot be accepted.

*Materials involved* - electrical switchboards

BAYONNE - FR - 2021 - private procurement -  
Surface : 1900 sq.m -  
FCRBE coordinator : [Bellastock](#) + [CSTB](#) -  
reclaim dealer : [Patxa'Ma](#)
