

## H2-Share Newsletter IV, Closing Conference

In this fourth edition of the H2-Share newsletter we share with you the programme of the Closing Conference, to be held at Wystrach on Tuesday the 15th of March 2022. The meeting will be in person for a restricted group of project partners due to covid-19 measures.

However, we would like to offer you valuable insights in this heavy-duty hydrogen truck pilot that took place across North-West Europe.

Therefore, the conference - with presentations of VDL, Wystrach, Hydrogen Europe and Interreg NWE among others - can be followed online between 10 am and 1 pm. Make sure to register below if you want to follow this session!

# **(Draft) Programme Closing Conference H2-Share**

**Rebecca Grossberg, Interreg NWE**

Welcome & introduction, 15 mins
