

## BioBase4SME WORKSHOP

# The Collaboration Plan(t)

Date: 27 September 2017

Location: De Rusthoeve, Noordlangeweg 42, 4486 PR Colijnsplaat, the Netherlands.

The biobased economy poses new questions. In stead of huge homogeneous raw material flows, the new raw material is (often) scattered and heterogeneous. For this reason REWIN and Proefboerderij de Rusthoeve, organize the workshop “The Collaboration Plan(t)”, because the solution is found in collaboration).

### TOPICS

We invited speakers to talk about examples of biomass that have great potential for the transition to the biobased economy: Sorghum (Walter de Milliano, Hoeve Dierkensteen), hemp (Daan Kuiper, Crop Eye) and miscanthus. These plants need to be fractionated. This is where (small-scale) biorefinery comes in. Marieke Bruins, WUR will speak about different technologies and developments on this field.

Mathijs van Campenhout (REWIN) will present different ways of financing business cases that involve multiple parties. Cor van Oers will talk about the role the Biobased Innovations Garden could play.

It will be a great networking opportunity due to drinks at the end.

### TARGET AUDIENCE

SMEs that work on bio refining, or are working with complex value chains. We expect around 50 attendants. Companies that participate in primary agro sector are excluded from this event.

BioBase4SME Workshop organised by:

BioBase4SME is operated and/or co-financed by:

## BioBase4SME WORKSHOP

# The Collaboration Plan(t)

**Date:** 27 September 2017

**Location:** De Rusthoeve, Noordlangeweg 42, 4486 PR Colijnsplaat, the Netherlands.

## PROGRAMME AND SPEAKERS

**10:00 Arrival - welcome coffee**

**10:30 Welcome - Charlotte van Sluijs**

**10:45 BioBase4SME – Roel Koevoets**

Introduction on the workshop  
and what BioBase4SME is.

**11:00 Sorghum – Walter de Milliano**

What is Sorghum and what does it offer.

**11:20 Coffee break**

**11:40 Hemp – Daan Kuiper**

The possibilities of hemp.

**12:00 Miscanthus**

To be announced...

**12:20 Bio refinery – Marieke Bruins**

What are the developments on bio refinery  
and which opportunities are there.

**13:00 Lunch**

**14:00 Case Study**

To be announced...

**14:40 Funding complex value chains –  
Mathijs van Campenhout**

Mathijs is expert in funding at REWIN.

**15:10 Possibilities on the Biobase  
Innovations Garden – Cor van Oers**

What is possible with the BioBase4SME  
vouchers at the Biobased Innovations Garden

**15:30 Networking and tour through  
the garden**

This program is subject to change. The registration is free, please sign up before 22th September 2017. After this date your place cannot be guaranteed. Please register at [r.koevoets@rewin.nl](mailto:r.koevoets@rewin.nl)
