## Open data to help you choose healthier routes for your run or commute?

There's good news for pedestrian and cycling commuters, as well as keen runners. The Flanders Environment Agency is enabling the incorporation of a very important aspect in routing and recreational applications: air pollution.

## BE-GOOD facilitating the development of a service to trace toxic waste water

In May 2013, a train accident in Wetteren (Belgium) led to toxic water in the sewer system next to the track. 2000 people had to vacate their houses for several days due to toxic fumes in the sewer.
