BioBase4SME WORKSHOP Bio-based plastic, what's new?

Date: Thursday April 2th 2019

Location: Maison de l'agriculture Atlanpole La Géraudière Rue Pierre adolphe bobière Nantes

Cost: Free of charge

OBJECTIVES

Bio-based plastics are products which are partially or completely made of renewable raw materials. Because of growing pressure for the use of more natural or bio-based raw materials and thanks to a rising awareness amongst customers today, these new bio-based plastics have now the capacity to compete with so-called conventional plastics. But what about this new sector? Is it capable of fulfilling the future needs of the industry?

SUBJECT: BIO-BASED PLASTICS

This workshop will be an opportunity to learn about the latest news and innovations in terms of bio-based plastics. We will present an entire sector starting in the laboratory and ending with the final user.

TARGET

Entrepreneurs, Chambers of agriculture, academic researchers working in the field of plastics or on activities linked to plastics.

BioBase4SME Workshop organised by:

BioBase4SME is operated and/or co-financed by:

Bio-based plastic, what's new?

Date: Thursday April 2th 2019

Location: Maison de l'agriculture Atlanpole La Géraudière Rue Pierre adolphe bobière Nantes

PROGRAM

9h00 ARRIVAL - WELCOME COFFEE

9h30 Introduction

9h45 BIOBASE4SME project

10h00 What is bio-based, biodegradable plastic?

Sophie Rabeau, Nov&atech

10h20 Laboratory:

Delphine Barbier, ISPA

10h50 Compounder:

Sandra Martin, Futuramat and Thomas Lefèvre, Natureplast

11h40 End-users:

Michel Criquetot, MCPLAST and Sylvie MOISON, LIGEPACK

12h30 Buffet lunch
