

Accelerating the energy retrofitting in condominiums

ACE-Retrofitting Users Club

March 26th 2020, 9:30-17:30

Museum La Boverie (Auditorium, Floor -1), Parc de la Boverie, 4000 Liège (Belgium)

DRAFT PROGRAMME

Municipalities and regions have a key role to play in the energy retrofit of condominiums. Many of them are already addressing the residential sector as part of their climate policies, but they are still often unaware of the specific challenges and needs of condominiums. Find out about the strategies and tools developed by two European projects, ACE-Retrofitting and INNOVATE, to better address condominiums.

This one-day event will be an opportunity for decision-makers and practitioners to exchange on solutions to accelerate the energy retrofitting of condominiums from both, a political and an operational point of view.

Target audience:

- Local authorities from Belgium and North-West Europe
- Local energy agencies
- Building and condominium service experts

Conference languages:

English and French

REGISTER

March 26th 2020, 9:30-17:30

Museum La Boverie (Auditorium, Floor -1), Parc de la Boverie, 4000 Liège (Belgium)

9:30 – 10:00	Coffee and registration
10:00-10:30	Condominiums - the big building challenge in Europe How ACE-Retrofitting and INNOVATE partners move the question of energy retrofits in condominiums forward.
10:30-11:30	When 6 cities take action to renovate their condominiums Many human, practical and financial obstacles still hinder energy retrofits in condominiums. Which methods are most effective to overcome those obstacles? How to motivate other European cities on this path?
11:30-12:30	Brussels-Capital Region: mobilising local players around condominium retrofits Through its involvement in the European INNOVATE project (H2020 co-financed) Brussels-Capital Region examined the condominium situation and identified obstacles for retrofits. They have found ways to lift those obstacles thanks to an intensive consultation with target public and key players. Annick Schwaiger from Bruxelles Environnement will present the results which will ultimately lead to the implementation of support services for condominiums.
12:30-13:30	Lunch
14:00-16:30 <i>Embarkment between 13:30-14:00 at Parc de la Boverie.</i>	Liège: condominiums along the waterfront – study tour and debates Aboard the " Pays de Liège" boat, participants will discover condominium retrofit projects in Liège. Indeed, along the waterfront of the river Meuse Liège is lined with numerous condominiums. There is no better way to observe them, as well as the transformation of the urban landscape, and to discuss while cruising on a river boat.
16:30-17:30	Networking cocktail on the anchored riverboat

INNOVATE : www.financingbuildingrenovation.eu

IMPORTANT FOR THE AFTERNOON SESSION: *Please be aware that the boat can only hold 80 people. In case the number of registrations exceeds this limit, we will give priority to local authority representatives. All registered participants will be informed beforehand about their admission (or not) to the boat.*
