

APPLICATION NOW OPEN - DEADLINE 31 MARCH

School of Re-construction

17-21 AUGUST 2020

RE-THINK RE-USE

SoRe

A five-day international summer school hosted by the School of Architecture and Design at the University of Brighton, with opportunities to meet our partners Rotor, Bellastock and Salvo.

Working in teams with designers and makers, you will re-think re-use; through the re-construction of disassembled materials, to create a series of thought provoking, design interventions in Brighton.

The FCRBE project is co-financed by the Interreg North-West Europe Programme.
